ISLAND TOUR full day

DESCRIPTION:

This is a full-day guided trip.

A full day excursion which starts between 08:30 – 09:15 picking up the clients at hotels or pick-up points. We will drive through to town of Pollensa and take the direction to the mountains, where we will have some spectacular views, like the monastery of Lluc and the Entreforc, which the official guide will explain during the trip. There may be the opportunity to stop the coach to take photographs, depending on traffic.
When we arrive at La Calobra, the clients will have time to explore the beautiful port and see some of the most breathtaking views of the island.
At about 12:15, we will take the boat from La Calobra to the Puerto Soller. This journey takes approximately 45mins and clients will have the chance to see the abrupt coastline of this area. Puerto Soller is known for being one of the most beautiful fishermen's Ports of the island. Clients will have some free time there to look around and for lunch (not included in the price).
At 15:00, we will take the tram from the Port of Soller to the village of Soller.
The train journey will be on the original 1912 wooden carriage train which will take us from Soller to Son Reus (on the outskirts of Palma) through beautiful olive groves, and the marvellous interior views of the island with breathtaking views of the valley of Soller. At Son Reus station the coach will be awaiting us to bring the clients back to the resort.

Recommendations for our clients:

- If the weather is bad and the boat is not permitted to sail, the guests will be taken over the mountain in the coach and will go on the boat around the bay of Puerto de Soller if possible. This decision is made by the Marine Command and does not depend on No Frills Excursions.

- The guide will recommend an excellent value restaurant in Puerto Soller that does a special deal for our clients: Pork fillet or fish with chips and salad plus drink, plus ice cream all for 9€ or pizza or spaghetti, plus drink, plus ice cream all for 7€.
- Times for the boat trip, tram trip and train trip may be different.
- To bring a camera is more of a necessity than a recommendation on this trip!
