This is a full-day guided trip.

Once we have picked up the clients at their hotels or pick-up points, we will drive along the coastal area of Alcudia, and then Majorca's inland area, passing through the pretty villages of Sta. There, we will visit the world famous Majorica pearl factory, where they will give us a brief explanation, and we will see the exhibition area, which demonstrates the process of making the pearls.

After this visit, we will go to the Caves of Drach, the eighth wonder of the world. The visit will start at 11, and takes 1 hour including the classical music concert on Lake Martel, the highlight of the visit. When the concert is over, the clients will have the chance to cross the lake on boats.

At 12:30, we will explore the east area, seeing a watchtower from the 15th century and having a short photo stop at one of east's most beautiful coves and finally having a free time in the beautiful seaside town of Porto Cristo.
